Corrigendum

Page 14, paragraph 63, line 6

Replace penultimate and final sentences with the following:

The Council, at its thirty-fifth session, in its decision 89/35, requested that a study be undertaken of central evaluation capacity as well as such capacity as available in the Funds and operational units. This has been completed. It is believed that any measurement of capacity, both extant and prospective, needs to be translated into some order of magnitude to be meaningful. A review of the current work programme of CEO and an assessment of future demands which would need to be fulfilled, would suggest that the level originally identified in 1983 and reflected in document DP/ICW/1983/6 remains valid.

Delete and replace with the following:

The strengthening of the operational aspects of evaluation and, in particular, follow-up of the application of evaluation results, would require each operational unit, in particular UNV and UNIFEM, to have available adequate resources dedicated exclusively to evaluation planning, implementation and feedback.
